

Open Invitation

Tuesday, September 15, 2015 (Windsor, NS)

Have you been seeking a way to give back to your community? Or looking to volunteer close to home? Fire Service providers are the leading partners in creating a safe, well-rounded, and supported community.

The Municipality of the District of West Hants is working with their fire service providers to increase membership as it expands its role. Many volunteers have stepped forward and, as volunteers are the fire service's most valuable asset, we would like to encourage more residents to consider volunteering in their communities.

Volunteer firefighting is about more than putting out fires - it involves public education, continuous training, and responding to all the community's emergencies. The fire departments provide all levels of training opportunities including refresher training.

Please contact your local department for further information. All inquiries will be kept confidential.
