

Hi Friends,

Hello everyone!

My name is Vianka. I joined the Jump! Family a year and two months ago. I am a coach as well as the Jump! And lead teacher this fall. It has been an amazing journey working with the children and making relationships with each family.

When I was little, I traveled to many different places due to my dad being in the military. The first place I lived was Harker Heights, Texas. There, I joined gymnastics and instantly fell in love. I continued gymnastics through every transition for five years. I was able to learn so many skills and tactics from each coach. When I moved to South Carolina, I began playing soccer and stuck with it through high school.

It is so rewarding to be a part of your child's victories! It is important to me to set a solid learning foundation for your child as well as create a positive, safe, and encouraging learning environment.

Feel free to ask me any questions!

Fun facts: My favorite animal is an Orca. I love watching documentaries and films. I enjoy museums, painting, and making clothing.
