2.4) Please provide any additional comments you would like to convey to the instructor about YOUR performance in this class.

- I could have participated more often. But I learned so much in this class.
- I would have done better being in the classroom because this course is lecture heavy but I still think I did the best I could with the resources we had.
- N/A

3. The Professor

3.8) Please provide any additional comments you would like to convey about the professor's teaching:

- Class was taught very well and I enjoyed the professor
- I appreciated how clear and concise Professor Scauso was about assignments, grading, and the lectures in class. He really wanted to make sure that everyone understood as we went along and not just lecturing to get through the material.
- I think that Professor Scauso was amazing the whole semester. His course was clear, his expectations were clear, and his grading criteria was clear. The only thing that I wish I did better on was the quizzes. They were worded very difficultly and I felt that I was struggling to figure out what he was trying to ask, if they were a trick question, and sometimes my notes conflicted with the correct answer of the quiz. Otherwise Professor Scauso was incredible and I would recommend his course to everyone!
- I wish there was more interactive learning- projects, debates, maybe mock UN. The lecturing became repetitive and uninteresting.
- Prof. Scauso is a very professional and diligent professor. His style of teaching is very clear. The presentations are excellent. The pace is very good.
- Professor Scauso is such an amazing professor! He loves his job and makes all his students feel comfortable while talking about something as sensitive as politics.
- Professor Scauso is truly one of the best professors at the University, he is dedicated and passionate about what he is teaching and it really shows. I couldn't imagine anyone teaching this course any better than he has.
- Professor Scauso was always very engaging and enthusiastic about the material he was teaching. He was always approachable and created an environment where I felt comfortable answering questions without the fear of getting things wrong. Professor Scauso was very good at teaching each approach through modern examples that made them applicable and easy to understand. I took this course just to fill a global requirement and now I recommend it to everyone looking for a course to take. I have nothing but great things to say about this professor!
- Professor Scauso works hard to answer all student questions while trying to bring the utmost clarity when going over different topics, ideas, and cases.
- This was by far one of my favorite professors I've had at QU. Super enthusiastic, respectful to students needs and facilitates an awesome learning environment. Really cares about his students and it shows
- Very nice and understanding.

4. Class Materials

4.3) Please provide any additional comments you would like to convey relevant to class materials:

- I got through the class without having to do too much of the readings so Not sure they were necessary
- N/A
- Textbooks and outside materials were absolutely necessary for this course, otherwise one would not understand it at all. However, the reading was very interesting and brought to light many subjects that I felt I did not understand before.

5. The Course Overall

5.3) Please discuss any and all strengths and weaknesses related to this course:

- He stayed at one view at a time which helped me get less confused about all the other views.

- Interesting the new perspective and growth of a different mindset taught in this class. This has allowed me to realize and strengthen the idea of perspective when arriving to conclusions.
- Strengths: informative about history and politics and helped me understand things I did not know about before. Weaknesses: hard to keep up sometimes, but professor Scauso reacted quickly to the class asking him to slow down and was receptive of our needs.
- The notes are extremely effective and concise, they help tremendously
- This course was one that challenged me, but in a good way. I gained a lot of new perspectives that I know I will use in other courses later in my time here.
