

HEALTH & SAFETY PROCEDURES

The procedures outlined below have been implemented to maintain a healthy and safe environment for clients and staff at Building Bridges Therapy Center.

It is required by all to adhere to these procedures, to continue center-based services.

- DAILY HEALTH SCREENING SURVEY
- DAILY TEMPERATURE CHECK
- PERSONAL PROTECTION EQUIPMENT (PPE) PROVIDED AND MANDATORY FOR ALL STAFF:
 - FACE MASKS
 - GLOVES
 - FACE SHIELDS (as needed)
- 6-12 FT SOCIAL DISTANCE ENFORCEMENT (beyond 6ft when possible)
- FREQUENT HAND WASHING AND SANITIZING ENFORCEMENT
- DISINFECTING OF ALL THERAPY FURNITURE, MATERIALS, AND TOYS AFTER EACH SESSION. DEDICATED STAFF MEMBERS WILL BE ASSIGNED TO ENSURE THIS IS COMPLETE.
- REDUCED OCCUPANCY IN GYMS
- GROUP THERAPY IS DISCONTINUED UNTIL FURTHER NOTICE
- FREQUENT CLEANING OF COMMON AREAS
- ACCESS TO THE CENTER WILL BE LIMITED TO ESSENTIAL PERSONNEL AND DESIGNATED INDIVIDUALS AS REQUIRED. (see details on Building Restrictions document)

* IT IS PREFERRED THAT ALL CHILDREN WEAR MASKS, HOWEVER WE DO UNDERSTAND THAT THIS MAY NOT BE TOLERATED WELL BY CHILDREN WITH SPECIAL NEEDS. OUR SAFETY GUIDELINES WERE DEVELOPED WITH THIS IN MIND, THEREFORE MASKS ARE NOT MANDATORY FOR THOSE CHILDREN.

All parents receive written notification of these, and all other health/safety procedures (including parking lot, health screening details, etc.) as well as sign a Consent for Services form prior to starting services.
