

# Wild Geranium

This Native perennial is both beautiful and useful. It is great for the woodland garden and naturalizing and performs well in a variety of conditions. It is known to be deer and rabbit resistant as well as drought tolerant. The seeds attract Mourning Doves and Bobwhite Quail among others. Wild Geranium is a beneficial nectar source for many Native Bees and Bumble Bees. Native Geraniums are a larval host to over 20 species of butterflies and moths. This plant also has several important medicinal uses.

**NATIVE TO  
PENNSYLVANIA**

## *Geranium maculatum*
