

## Our Staff

Our summer horseback riding day program is run by a very attentive staff consisting of professional horse people. All group leaders have experience with handling horses and teaching a quality horsemanship program.

We focus on our participants, giving them the individual attention and instruction they need to keep safe and cultivate a passion for horses.

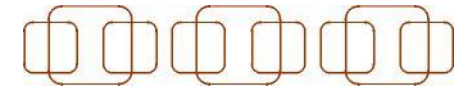

## Our Goal

We want the experience at Big Bay Farm to be rewarding in every way – full of wonderful memories. We do everything possible to ensure participants not only have a fun summer, but also develop a lifelong love of riding.
