RECOMMENDATIONS: Full details at <https://www.linkedin.com/in/davidrfeeney>

“It is my pleasure write this letter of recommendation for David Feeney. I have known David for 12 months, as his supervisor in the College of Arts and Sciences at Seton Hall, and I can recommend him with the utmost confidence. For two years, David has led the college efforts to improve and expand online education. Most notably, he orchestrated the rollout of an extremely successful hybrid MSW (Masters of Social Work) program. As part of this effort, he developed a successful two-day online orientation program (using SHU CAPTURE) and ensured high standards for instructional quality by co-enrolling in every MSW course. David has brought a similar level of commitment to all our online offerings, training faculty and co-enrolling in courses to support faculty in their efforts to deliver high quality content using the latest technology. Several of his notable initiatives include launching pilots for Canvas and Yellowdig, creating an Online Students Organization, and providing the design for iPilgrimage — a virtual study-abroad option for students who are unable to travel with our mission-based study tours. These latter two initiatives reflect David's deep commitment to leveraging technology to respond to the needs of all students and to improve access to education. He does not merely view online education as a revenue stream, rather, he is committed to collaborating with faculty to enhance students' educational experiences and outcomes. David has been a tireless champion of online education, a valued colleague within the Arts and Sciences team, and an engaged member of the Seton Hall community.” — Dr. Peter Shoemaker, Dean of College of Arts and Sciences, Seton Hall University

“David is a master of organizational change to transform the way an academic unit conceptualizes & realizes its mission.” — Dr. Don Hantula, Director of Decision, Risk & Management Sciences at National Science Foundation

“David worked under my direct supervision at Temple University for a period of two years. During that period, I saw him grow from an instructor of educational technology into a high-level manager of major initiatives. David is a hard-working self-starter who invariably understands exactly what technology faculty should be utilizing in the classroom & how to facilitate their use of it in order for them to be successful. He is a resourceful, creative, & solution-oriented person who was frequently able to come up with new & innovative approaches to learning technologies. In closing, I highly recommend David Feeney.” — Sheri Stahler, Associate Vice President at Temple University

“David R. Feeney is energetic & was able to implement a number of key academic initiatives. He did this using a team approach, including group meetings & one-on-one encounters with administration, faculty, & staff. He was a strong leader, never procrastinated, completed all projects in a very timely manner, & sufficiently delegated his tasks when appropriate. David would come up with novel approaches to both old & new problems. He was professional in all aspects of his job, treated everyone equally, & respected those above & below him.” — Dr. Robert Christman, Professor at Western University of Health Sciences, College of Podiatric Medicine

“I have been working with Dr. Feeney on online program development & deployment. He has been a great colleague & co-worker. He has in-depth expertise of all aspects of online programs which he leveraged to help me design my online courses. I highly recommend Dr. Feeney.” — Dr. Manfred Minimair, Associate Professor of Mathematics & Computer Science at Seton Hall University

“David Feeney was invaluable for the Fox School & for me as a faculty member. He performed a very valuable role in making Fox School a leader at Temple University.” — Dr. Art Hochner, President at Temple Association of University Professionals

“Dr. Feeney is a masterful educator. He is thorough, insightful, & responsive both to students & his colleagues. In class, he quickly developed a reputation with the students for a supportive & consistent online presence. In short, his performance has been excellent at all stages of the process. He's student-centered, insightful, hard-working, & driven to continuously improve.” — Richard Schimpf, Director of General Education & Online Learning at Cogswell College – Silicon Valley

“Dr. David Feeney is a visionary leader & staunch believer in digital media & educational technology to support faculty & administrators. David's tireless efforts led Fox School of Business to become one, if not the, top business schools for incorporating on-demand & live video playback of academic content. Fox School remains a leader in the digital media space thanks to the efforts developed by Dr. David Feeney.” — Jennifer Kirkpatrick, Regional Manager of Academic Partnerships at ECHO360, Inc.
