### Consumer guidance

Solid, Liquid weights show the price for 1 kg, 1 l to compare prices + the actual weight and price.

The product with the **lowest kg, l price is the Bargain !**

### Deceitful packaging (consumer fraud)

Profit orientated economies allow immoral criminal '**Deceitful Packaging (consumer fraud)**'. Consumers need protection from deceitful, dishonest, parasitic, predatory, greedy profiteering producers, manufacturers and retailers who use 'Deceitful packaging' (**down sizing content**) to take advantage (**rip off**) of consumers.

Examples of how the deceitful, dishonest, greedy system works.

A product comes in a 0.440 kg package using their brand label. The same product is also labeled as a retailers home brand, but the package content is reduced to 0.415 kg. It is done so a retailer can sell their home brand at a lower price than the manufacturer brand. **This is to fool (deceitful, dishonest, greedy trick) a consumer into thinking that the home brand is a bargain because of its lower price.** When in fact, a consumer gets less product there is no saving. Sometimes a consumer

ends up paying more. **Consumer fraud!!! MS R3**

A manufacturer packs his product in a 0.440 kg package. Another brand uses the same size packaging but in a deceitful, dishonest, fraudulent, greedy manner only puts 0.425 kg of product in. If products are sold at the same price, the 2<sup>nd</sup> manufacturer makes a greater profit. The consumer gets less product for the same amount of money spend. The consumer has been deceived. If the 2<sup>nd</sup> manufacturer sells at a lower price, his product looks like a bargain. Because there is less product in the 2<sup>nd</sup> package it should therefore sell for less, not making it a bargain anymore. The 2<sup>nd</sup> manufacturer hopes in a deceitful, dishonest, greedy manner, that the consumer will not check the weight since his packaging looks similar to competing products. **Consumer fraud! MS R3**

Packaging comes often with less than full content (**over sized packaging**). Packaging is designed to hold 6 items but only contains 5. This deceit is meant to deceive consumers in believing they get more than they actually get! **Consumer fraud!!! MS R3**

**Get less > pay More!** A manufacturer adds less Salt, Sugar. Labels product 'Reduced' and charges more! Reduced is to convey to consumer there was an extra cost (**something taken out, reduced**). Therefore a higher price is needed. Not True, there is no extra cost. Manufacturer put less in, so the price should be lower. **Consumer fraud!!! MS R3**  
**Reduce means put less in.**

Imported goods packaged to look like local product. **Consumer fraud MS R3**. Local product packaged to look foreign, imported. **Consumer fraud MS R3**.

**Must do !**

Government is to standardize packaging content size. Standard's apply to commercial, industrial, personal packaging. **Note!** Imperial measures are obsolete. **All Packaging is recyclable.**
