

Additional Prayer Requests as of August 2016

Date: Sunday, August 07, 2016 8:49 PM

Dear Friends;

Esther goes for another scan on August 10, 2016. Depending on what they find;

1. If they do not find any small cancer growths, then they will continue present medication.
2. If they do then regular chemo injection or radiation.
3. Dr. does not anticipate surgery.
4. We were invited by Brother Ed Wilson to a church where he was preaching. The Church prayed for Esther.
5. We are believing God for his complete healing.
6. Esther was much better after the prayer of so many saints there and at other places.

Sincerely yours:

Dr. Steve & Esther Walker Chaplain

Here are some additional important prayer requests to lift up:

Subject: Prayer Requests

Prayer Requests for August 1, 2016

Tom Caldwell (Correctional-Frankfort, Kentucky) requests prayer for "divine protection from attacks from the enemy for my family [Kim, Emma, Anna, Tom] during this week and season."

Robert Dickey (Hospice-Remington, Virginia) requests prayer for his wife, Belva, that she will get a healthcare chaplaincy position and be placed exactly where God wants her to be.

James Murphy (Correctional-New England, North Dakota) requests prayer, as he sprained his ankle and may need hospitalization. Also, his son is experiencing an unknown health issue, and his daughter-in-law is recovering from surgery.

Carmen Otero-Rivera (Correctional-Bayamon, Puerto Rico) requests prayer for her husband, Angel, who has high blood pressure.

Keith Turcotte (Motorcycle-Lakeland, Florida) requests prayer for his daughter, Kelly, who is scheduled to have a C-section tomorrow, August 2. ("Having a new grandson!") Then, Kelly will have her gallbladder removed six weeks after the baby's birth. Please pray that everything goes well.

Steve Walker (Correctional-Union Springs, Alabama) requests ongoing prayer for his wife, Esther, as she continues to battle cancer with a new medication. Pray for both of them, as they are so tired, and the medical bills are also a concern. Just this past Friday, Esther went in for a routine blood check, but the findings caused some alarm. Esther is scheduled for a scan on Wednesday, August 10.
