

BIG BLUE BUS

Reflections of the big blue bus
Our precious cosmic dot
We are all just passengers
On the only home we've got

Future generations
Will look back on what we've done
So let your freak flag fly
Know that you are loved
One for all & all for one

'Cause when you get down to it
Just takes a little love

Hey, everyone
It's the story of us
Tripping 'round the sun
On the big blue bus

This melting pot
It's the story of us
A still-evolving lot
On the big blue bus

You say you've heard it all before
Won't you listen once again
Divide a house against itself
Or reach out and be a friend

Imperfect guest
Indifferent world
Do what you must

Gooble-gobble
Gooble-gobble
We accept you
One of us

'Cause when you get down to it
Just takes a little love

Hey, everyone
It's the story of us
Tripping 'round the sun
On the big blue bus

This melting pot
It's the story of us
A still-evolving lot
On the big blue bus

We're all in this together
E pluribus unum
So make the best of every day
As we dance around the sun

'Cause when you get down to it
Just takes a little love

Hey, everyone
It's the story of us
Tripping 'round the sun
On the big blue bus

This melting pot
It's the story of us
A still-evolving lot
On the big blue bus

Just takes a little
Love
Love

Just takes a little
Love
Love

Just takes a little
Love
Love

Just takes a little
Love
Love

Ah, love
