# HISTORY

June 2106

Guatemala is quickly becoming the “Crown Jewel” of Central America. Our involvement with Thrive Coffee is centered in Guatemala. Our long-term relationships in Guatemala offer us a wide variety of opportunities both in 2015 and the future. The most recent project to Guatemala was in June. This project was a high profile project involving kingdom partners, marketplace leaders, and top government officials.

# SEMINARS

The Leadership Passage ([www.TheLeadershipPassage.com](http://www.TheLeadershipPassage.com)) seminar was delivered eight times in three days. Our team spoke to 8,000 leaders with our largest attendance of 2,500 at one gathering. The seminars were open to church leaders, leaders in education, and marketplace leaders. Two seminars were marketplace leaders at the executive level. Participants on this project were very proficient with the content and able to deliver their thoughts in large settings through a bi-lingual interpreter or simultaneous interpretation. This project was for couples. Four Chick-fil-A operators and one Chick-fil-A Corporate staff attended along with their spouses. We will continue our partnership with Guatemala Prospera in 2016 with leadership seminars and go deeper into the five levels of The Leadership Passage. The leadership focus in 2016 will be talent, trust and teams.

# 2016 PROPOSAL

During our time in Guatemala, we visited an orphanage (Casa Shalom) where we provided the 90 children that live there a day of fun with inflatable slides and ice cream. We also toured Thrive Coffee hosted by Edgar Cabrera. While touring the estate, we discovered another opportunity to partner with Thrive Coffee in 2016. Thrive Coffee operates a school for the children of those who work on the estate. As we visited the school Juan Fernando told us his vision to improve the school and offer the children a better education. The school also provides lunch for the children each day. Our entrepreneurial minds began to generate ideas of how we could make a difference through our partnership with Thrive Coffee, Chick-fil-A and LifeShape International. We felt we had a natural fit with Thrive and saw an opportunity to return and conduct some LifeShape International Projects associated with the refurbishing of the school on the grounds of the estate. From the pictures included you will see many opportunities to improve the school classrooms and grounds. Our proposal is to begin with a school project in the beginning of January during the height of harvest. I feel we can offer five projects in 2016 involving the Chick-fil-A family with various objectives. This can be a great opportunity to include spouses and children to work together.

Our partnership through Chick-fil-A, LifeShape International and Thrive Coffee provides a natural connection to make a difference and build into the lives of others while serving.

# RELATIONSHIPS

My friendships in Guatemala reach far beyond our partnership with Thrive Coffee and LifeShape International. Eight years ago, I was introduced to Manuel Espina and the friends from Guatemala Prospera. In our original meeting, Manuel shared his dream for Guatemala Prospera to influence the country of Guatemala and change the entire culture to a culture of respect and honesty through character education based on Biblical values. Their efforts have influenced the entire culture of Guatemala. Manuel has attended the National Prayer Breakfast in Washington DC. He has also invited other members of Guatemala Prospera to attend each year. For the past three years Manuel and I have hosted Members of Congress and top marketplace leaders from Guatemala in Washington DC. As a result of their attendance, the Members of Congress have begun their own weekly bi-partisan prayer groups in Congress. On August 20, 2015 Guatemala Prospera along with the Congressional Prayer Groups will host the third National Prayer Breakfast of Guatemala. I will be accompanying Senator Mike Lee (R-UT) who will be the keynote speaker.
