Fee Information Sheet for Speech-Language Pathology, Assistive Technology/Augmentative Communication Services

Direct Speech and Language Therapy Services:

\$125.00/hr*

Services include direct speech and language therapy in the areas of articulation, voice, fluency, receptive, expressive and pragmatic language, social thinking, executive functioning, etc. A SOAP note will be generated after each session.

Indirect Speech and Language Services:

\$75.00/hr*

Services include attending IEP meetings, consultation to parents, teachers and other support staff (in person or by phone) as well as report writing (e.g. progress note, summary report, etc.).

Speech and Language Evaluation:

\$500 - \$1200 fee*

The purpose of the evaluation is to assess an individual's skills in the areas of articulation, phonology, receptive, expressive and pragmatic language, social thinking, executive functioning, memory, etc. Evaluations range based on the specific areas being tested. For instance if only an articulation evaluation is needed the fee will be \$500 whereas a full evaluation of all areas of language would be \$1200. The fee includes consultation with parents, teachers and support staff, review of past and present IEP's and relevant reports, classroom observations, direct and indirect testing, review of testing results and evaluation report.

Direct Assistive Technology/Augmentative Communication Services:

\$150.00/hr*

Services include direct therapy intervention and treatment utilizing speech generating systems and/or computer technology with modifications for training and diagnostics. These sessions allow development, drill, practice, repetition and challenge skills in the following areas: cognition, language, sequencing, memory, problem solving, pragmatics, and motoric access to technology options as appropriate to the individual being served. A SOAP note will be generated after each session.

Full Assistive Technology /Augmentative Communication Evaluation:

\$1500.00 flat fee*

The purpose of the evaluation is to determine what forms of AT/AAC Communication are appropriate for the individual. The assessment includes the initial consult with parents, teachers as well as other support staff, review of past and present IEP's and reports, classroom observations, direct and indirect AT/AAC assessment of the individual, three AAC device trials if applicable, data collection and an evaluation report to include findings and recommendations.

Assistive Technology/Augmentative Communication Consultation: ***\$100.00/hr****
The purpose of the consultation is to provide AT/AAC application support to parents, teachers and other support staff. Feedback and recommendations are provided via a summary note.

Customization/Modification/Fabrication: ***\$150.00/hr****
Services include creation or development of manual communication systems (e.g. point books, PECS, PODD, mid tech devices, etc.), customization or modifications of speech output systems and computer systems.

Augmentative Communication Device Trial Help ***\$750.00 flat fee****
Services include help to obtain recommended devices based on previous AAC evaluation, consultation with teachers and support staff, data collection and report.

In-service Training ***\$180.00/hr****
Presentations to school staff, other professionals, and families regarding assistive technology, device systems, software, etc.

The cost includes time spent for equipment setup and takedown as well as the cost of handouts.

***Travel Fee**

There is a supplementary flat fee of \$75 that will be added to any above service outside of a 20 mile radius from my office.
