

## Find a Therapist

The therapists in our directory below are VPA members in good standing and are credentialed by their respective regulatory boards.\*

VPA does not endorse any particular therapist, nor does it guarantee satisfaction with, or the quality of, their services. VPA does not have minimum requirements of its referral members for years of experience or malpractice insurance and encourages you to ask a prospective therapist these questions. It is a member's responsibility to advise VPA of a change in status with the appropriate licensing board; the information presented here represents the most recent information available to VPA.
