

Become a Contest Chair

SkillsUSA Kansas utilizes our partners as Chairing contest for the State Leadership and Skills Conference. Business and Industry supply the Kansas organization with contest chairs, judges, and award prizes for the contest they are hosting. Many of our contests have multiple partnerships from business and industry pulling together for one contest area.

SkillsUSA Kansas business and industry are supporters of career and technical education. These businesses have an opportunity for input into skill training, a chance to recruit top technical students and the opportunity to help develop America's future workforce.

SkillsUSA Kansas serves more than 1,000 career and technical competitors annually. These students are training in our State's high schools and college/postsecondary institutions in a variety of careers such as cosmetology, automotive technology, machining, drafting, culinary arts and computer networking and much more.

More than 1,200 companies and organizations participate in SkillsUSA programs nationwide. Companies benefit by having input into specific skill training, an opportunity to recruiting top technical students, and the good feeling that comes from helping America's future workforce develop marketable skills. Many industries today face a shortage of skilled workers, and SkillsUSA offers a tangible way to help solve this problem by ensuring that there will be a future workforce trained in the skills industry needs.
