<p><u>Build Center costs</u></p> <p><input type="checkbox"/> Builders Education & Assistance Program—Shelbyville, TN. \$75hr</p> <p>A typical Lightning Classic build equipped for Day and night VFR will require about 320-350hrs to complete. IFR equipment, non standard items or custom work will take longer</p> <p><input type="checkbox"/> Paint cost typical. We do not paint aircraft and we don't control paint costs. This is to provide a general idea of paint cost near us for a scheme like our demo N34XS. \$25000 BASE</p> <p><input type="checkbox"/> Interior cost typical. We do not do interior work. However an interior like our demo N34XS may cost this. \$4500 BASE</p> <p><input type="checkbox"/> FAA Airworthiness inspection. At our facility we contract with a civilian DAR not the FAA. This is the typical cost for inspection. \$1400</p> <p><input type="checkbox"/> Panel Pre-wire and benched tested. Typically; Dynon, Garmin, or GRT. Cost is provided to help planning your kit and may vary. \$5500 BASE</p>	<ul style="list-style-type: none"> A deposit of 25% is required with your kit order. This secures a kit production slot and kit price. Jabiru 3300 engine orders are a separate form. You will receive at the time of deposit an invoice showing that deposit and receive a kit serial number The remaining balance of the kit and all options is due 30days before delivery. Deposits can be made with a check, cash, or wire transfer. <p><u>Other things to know</u></p> <ul style="list-style-type: none"> Kit will accept engines such as the UL350is, UL390is. Rotax variants. Engine mounts are available and the standard jabiru cowl can be adapted to fit with some fabrication. Kit can be built to comply with current Light sport pilot requirements or Basic Med. MOSAIC Ready. <p style="text-align: right;"><i>Order Form updated 1/1/2025</i></p>
