

Is Downsizing Right for You?

As a current home owner in McKinney, TX, we have appreciated the quiet and mature tree-lined streets of this family-oriented award-winning City. However, as our children grew up, graduated and (finally) married, we as "empty nesters" realized that we needed a smaller one story house, or as frequently quoted, we needed to "downsize".

Accordingly, we transitioned from a larger two-story house to a "right-sized" **one-story** house here in a quiet neighborhood in McKinney. Our downsizing decision was emotional and stressful as we assessed our finances, retirement goals, health, security, and housing needs.

In retrospect, not everyone will make the journey we did, but as we stepped through the learning curve and process we believe it was particularly right for us. Coincidentally, as "seniors" ourselves, we bring a keen understanding of the housing issues, service needs, and challenges facing seniors. Maybe we can help you?
