MEDICAL ALERT SYSTEMS *to fit any lifestyle.*

TRADITIONAL- \$24.95/Monthly  
W/Fall Detection add \$9.95/Mo  
with COA/Agency Referral

Our traditional system with pendant and two-way voice through the base station is ideal if you typically stay in a few rooms in your home. This system requires that you have regular land line phone service in your home.

MEDICAL ALERT + - \$34.95/Monthly  
W/Fall Detection add \$9.95/Mo

Our traditional cellular system operates on AT&T's nationwide cellular network and is easy to install in the home.\* The base station will work as an integrated system with the pendant and wrist button. This unit is perfect for those without a home telephone line.

NATIONWIDE CELLULAR - \$39.95/Monthly  
W/Fall Detection add \$4.95/Mo

The cellular system with GPS allows us to send help no matter where you are!.\* This unit is ideal if you have a mobile lifestyle and want protection both at home and away and you don't have a home telephone line.

\*System depends on AT&T cellular coverage

Independence at the touch of a button!

# How the System Works: *Three Easy Steps*

1

Press the button on your medical alert system.

2

You are connected with our highly trained emergency dispatchers.

3

The dispatcher will speak with you, assess your situation, and send a family member or the necessary emergency services.

## *World Class* Medical Monitoring

Our medical alarms are monitored by our very own world class monitoring center with over 40 years of emergency medical experience.

- *All operators are EMD certified by the National Academies of Emergency Dispatch*
- *Training meets & exceeds criteria set forth by the Association of EMS Physicians*
- *CSAA Five Diamond certified and UL listed*
- *Three bi-directionally redundant call centers*
