

Schmidt's Aquatic, LLC

Schmidt's Aquatic, LLC chemically treats public and private waters in the State of Wisconsin. Our aquatic services for lakes, ponds, rivers, private ponds, and retention ponds help ensure that we:

- ✓ Preserve recreational waterways to ensure that public or private lakes, ponds, and even retention ponds stay healthy for both the public and wildlife
- ✓ Preserve waterways so they can be navigated by the public and waterfront owners
- ✓ Preserve and respond to invasive plant outbreaks like Eurasian water-milfoil
- ✓ Preserve and respond to mosquito outbreaks to prevent vector borne diseases
- ✓ Preserve and respond to algae blooms which can be harmful to the public
- ✓ Is Aquatic Services and Algae Control an Essential Business Service? Yes, Schmidt's Aquatic, LLC supports the Critical Trades, and the public health communities throughout Wisconsin.

Schmidt's Aquatic, LLC

Schmidt's Aquatic, LLC has in place the "safer at home" and "social distancing" protocols. Other protocols include limiting on-site personal at our home location, as well as at all public boat landings we plan on working at during the Covid-19 pandemic. All of our projects will continue to practice good social distancing that should pose little risk.

STREET ADDRESS OR LEGAL DESCRIPTION
7470 SHERMAN RD BANCROFT, WI 54921-

Complete one form for each business location.

Business location means any place from which a commercial application business operates on a regular basis as a commercial applicator for hire, including a location at which orders for pesticide applications are regularly taken. This does not include motorized vehicles containing mobile telephone units used to take pesticide orders.

Point of Clarification: A business which receives payment or advertising as a provider of pesticide applications is a commercial application business, as is any commercial applicator who acts as an independent contractor on behalf of the aforementioned business. Example: a farm supply location that takes a pesticide application order, bills the customer and subcontractors with an independent applicator for hire, including a location at which orders for pesticide applications are required to be licensed separately and each pays the \$70.00 fee.

Meeting/Landing Sites: Each site where a commercial application business mass or loads at least 1,500 pounds of pesticide active ingredient during a license year (excluding active ingredient that is applied at or immediately adjacent to the mixing or loading site), must be licensed as a Commercial Pesticide-Application Business. If a licensee operates two or more mix/load sites within 0.5 mile of each other, they are considered a single site, requiring one license.

Fee \$70.00
ACCP surcharge: Variable based on ACCP fund balance on May 1 of each year \$0.00
ACCP bulk storage location surcharge Variable based on ACCP fund balance on May 1 of each year \$0.00
Late Fee, if you held a License the previous year AND you are paying after December 31 \$14.00

AFFIRMATION: I hereby certify that the information submitted on this form and any attached pages is true and correct, and I am authorized to sign this application.

NAME/TITLE: Hamilton D. Harvey, III - Owner
