302 North Sheridan St.

Corona, CA 92880 – 800-342-2512

Forrest and Charlotte started Lucas Oil Products with the simple philosophy of producing only the best line of lubricants and additives available anywhere. Since its inception, Lucas has steadfastly adhered to this corporate objective. Through innovative product research and development, along with aggressive marketing programs, Lucas has established itself as a top selling additive line in the American truck stop industry.

Lucas is also one of the fastest growing additive lines in the consumer automotive industry. A premium line of oils, greases and problem solving additives has helped to firmly establish Lucas as a prominent figure in this marketplace.

Lucas also produces a heavy duty line of products for the industrial and agricultural markets. President Forrest Lucas sums it up, "Our forte' is to make better products for industries and specialty situations that are not having their needs completely satisfied by other oil products and, believe me, the major oil companies have left a lot of weak spots. We have an excellent staff and a world of technology which we have gained through years of research. Together we have done a great deal in a short period of time and we intend to do a lot more."

Lucas has long been directly involved in the American racing industry through multiple vehicle sponsorships and racing event promotions, at all levels. Seeing a need for better lubricants in this industry, the Lucas people went to work again. The end result being a line of high performance engine oils and gear oils that are second-to-none in the racing industry.

The Lucas success story has been built upon hard work, an unparalleled line of premium products and an unwavering commitment to customer satisfaction. This single formula for success will continue to guide Lucas Oil Products as it grows in the years to come.

## Brandon Strings “Music for Your Films”

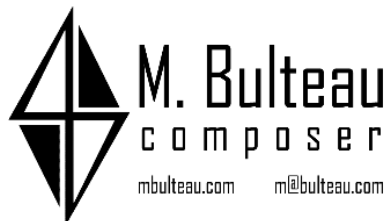

<http://www.brandonstrings.com>

Born in Los Angeles, Brandon Vaughn Williams has spent much of his life involved in music. Until 2013, he wrote, recorded and toured with various rock bands, most notably Secret Empire.

Since 2013, Brandon has moved on to work with world-renowned orchestral composer/arranger David Richard Campbell, immersed in all of his recording projects, including: orchestral compositions, collaborations with rock, pop and country musicians, original film scores, as well as performances with the Los Angeles Philharmonic and the Dallas Symphony orchestras at the Hollywood Bowl, Walt Disney Concert Hall, and Meyerson Symphony Center.

Brandon plays guitar, piano, violin, viola, cello, and banjo, and various other instruments. His experiences with audio engineering and recordings for Campbell have enabled him to self-produce recordings such as the music he composed for “Contrell” featured in the EQUUS Film Festival 2016. In light of his relationships with many recording orchestras and his ability to play the instruments himself, he aims to accommodate filmmakers and dressage artists with varying budgets who require original music scores.

For more details on projects Brandon has worked on, go to [brandonstrings.com](http://brandonstrings.com).

Ideal Property is a Real Estate Development Group focused on rehabilitating distressed properties. We provide the American Dream for all homebuyers by taking the old, the bad, and the ugly and turning them into beautiful luxurious homes. With our years of experience in developing residential property, our buyers are confident and extremely satisfied with the taste of our interior design, quality of craftsmanship, and professional service.

In addition to building, maintaining, marketing, and choosing the best quality materials for our properties, we have also developed a list of proven professionals who we trust to get the job done. This includes mortgage bankers, inspectors, engineers, attorneys, insurance representatives, short sale processors and other professionals who are involved in the process of buying and selling property.

Service, respect, and trust are what this company was founded upon and we succeed with those three ideas in mind. Our dedication to our clients is apparent in everything we do. From marketing to sales, materials to design, and showing to closing we have earned ourselves an excellent reputation with our clients.

If you are considering a real estate transaction and would like a free consultation, give us a call and see for yourself why we are the best!

### Mission

Protecting, preserving and sustaining the wild American mustang

Our vision is a population of wild American mustangs, secure in their rightful place as living emblems of American freedom and benefiting from safe environments and humane and natural care.

Mustang Leadership Partners (MLP) was established in February 2009 to provide girls and young women with an opportunity to develop, practice, and improve relationship skills, responsibility, social accountability, self-awareness and

self-confidence—all of which are mirrored in the mustang's behavior. Providing hands-on science experiences and equestrian training, the MLP program is grounded in the belief that horses are mirrors to our energy systems and teach us important life lessons.

## Wild Horses of Sable Island Gallery

<http://dutescoart.com/>

<https://www.facebook.com/TheWildHorsesOfSableIsland/>

<https://twitter.com/WildHorsesSable>

<https://vimeo.com/user455186>

Roberto Dutesco has been revealing the beauty of nature and the human spirit through his photography for more than three decades. He first learned of Sable Island and its wild horses in 1994 and made his first trip to the island that same year. A perilous journey by small plane from Halifax and a beach landing brought him to this remarkable place. Over time, and with patience and respect for these living creatures who, in the absence of natural predators, exhibit no fear of humans, he learned the ways of the horses and fell in love with the island in the process.

As Dutesco discovered the island for himself over the course of several visits, he captured the beauty and isolation of the wild horses and their austere habitat through still photography and 16-mm film. His incredible journey is presented in a full-length documentary entitled *Chasing Wild Horses*, which has aired many times on the CBC (Canadian Broadcasting Corporation) and other media outlets in the U.S. and Europe.

In 2008, the Canadian government identified Sable Island as a protected national treasure under the Canada Shipping Act, Bill #227, as a result of Dutesco's efforts. He says, "This legislation underscores the point that, if natural locations like this are to endure, they must be left alone. I have spent the last eighteen years dedicated to that belief and will continue to work for their preservation for the future."

<https://www.youtube.com/c/horsewareofficial>

**Horseware** started with a small team, in Dundalk, Ireland in 1985. After months of research and hand-stitching the prototype of the now iconic Rambo Original was born, setting the standard for modern blanket design. Since then we have grown to become the world's most trusted producer of horse blankets.

Founded by Tom and Carol MacGuinness, their determination to produce a blanket that didn't leak, didn't make the horse sweat and didn't slip led to the creation of the first fully waterproof and breathable turnout that really worked.

Today, our Rambo range is still made in the same town in Ireland under Tom's watchful eye and with the same attention to detail and high quality material that we prided ourselves on in 1985. We are constantly striving to produce the best we can and have grown into a leading manufacturer of clothing for horses and riders. We never stop evolving; we're always seeking out untrodden paths, pushing boundaries and finding new challenges.

We believe that because we create, we innovate. And through innovation we aim to make a difference to the lives of you and your horses.

### MHIB Initiatives

The Maryland Horse Industry Board (MHIB) is one of only about a half dozen state equine commodities boards in the country.

The organization was founded in 1998 as an outgrowth of the State's Riding Stables Inspection Program that began in 1968.

MHIB receives no government funding although it is housed in the Maryland Department of Agriculture (MDA) building in Annapolis and is a program within MDA.

The organization is an example of a private/public partnership.

MHIB is totally funded from private equine industry sources. Monies are accrued from the annual licensing fees paid to MHIB by the state's approximately 600 licensed lesson, boarding, rental and rescue facilities and from the Feed Fund Assessment program. Every time a Marylander buys a bag of horse feed, 15 cents is voluntarily contributed by feed manufacturers to help fund MHIB projects and initiatives.

To honor the heritage of the True American bred Walking Horse.

To create a future with the FAME he so richly deserves.

Alliance spokespeople will be the voice of American citizens encouraging Congress to pass HR3268 and S1121. These bills will stop the abuses by so few who hurt so many. The horse has no voice and cannot lobby congress but WE can. Be that voice for the horses who are being sore and cannot cry out for help.
