Cook Smart with Maverick App-Driven & Remote Thermometers

Maverick is the inventor of the remote digital thermometer. We offer remote thermometers from opening price points to highly sophisticated units that have two probes; one to monitor food and another to monitor the BBQ. Both have alerts when the BBQ is out of the preset temperature range. Ask us about our brand new line of App-driven digital smart cooking thermometers including the Direct Connect ET-11 and the Bluetooth powered ET-735 shown here.
