One Cup Coffee makers are quickly becoming the fastest selling coffee product in America. But until now most coffee roasting companies could not even touch this market. The reason? Large producers of Pod type single serving cups required heavy investments in either machinery or expensive runs of 50,000 or more for pod cup orders. That was then. But this is now:

- Complete Pod Type Cup Kits for under \$2000
- Manual or semi-automatic Sealing Cup units
- Everything you need in a kit to produce pod- Cups
- Your first 1000 Cups Free
- Our unit is \$800 below the competition

HERE IS WHAT YOU GET IN THE BC- KIT:

YOUR CHOICE OF:

ONE 4 CUP MANUAL UNIT

OR

ONE 2 CUP SEMI-AUTO UNIT

AND 1000 CUPS KIT

(INCLUDES CUPS, FILTERS & FOIL LIDS)
