• THERE IS STILL TIME

AIR SUPREMACY

Mission Brief

WWW.FLYGOSHEN.COM

MARCH 2020

There has been a great deal of discussion about the injustice of the FAA's proposed rule for Remote ID. However, remote ID is upon us and the AMA is the organization that represents us in Washington DC. ***The 180,000 members of the AMA could be a formidable voice for amending the remote ID rules to accommodate traditional scale aircraft operations. To date only 13,000 comments, from all segments of the remote control industry, have been submitted.***

THERE IS STILL TIME TO SUBMIT YOUR COMMENTS

We have been monitoring the many posts on Facebook and the numerous videos on YouTube from all segments of UAS industry. They unanimously suggest that you submit your comments to the FAA before March 2, 2020. The AMA needs its membership to get involved. Air Supremacy Airshows is committed to this effort and strongly urges you and anyone who will support us get involved.

**Don't delay. Submit your comments today.
Urge your friends and relatives to do the same.**
