Completed Treatment

Treatment Level At Intake: B

Treatment Level At Discharge: B

Discharge Summary

Carlos was a good client and did a good job in the program. He completed 52 weeks of treatment as required by California. He completed about half his sessions in California and half in Colorado. In my group he was a verbal member of the group and contributed to group discussions. His verbal comments and his written assignments indicate he learned the concepts and how to apply them. He was able to talk about how he was applying what he was learning and now it is up to him to continue to apply what he learned.
