**Cela McPherson – 06/27**

**Tommy Solis – 06/12**

**Charlotte Upadhyay – 06/16**

**Woody Widofsky – 06/13**

## May meeting Show & Tell

Left: Jane Stacy's stick style Butter Dish and refridgerator set (she commented that the refridgerator set was not user friendly).

Right: Jane Stacy holding her green Measuring Cup. Jane's parents lived in Tiffin OH so she did have the opportunity to visit the plant located there.

Left: Brenda Reilly, Weil Ware Pepper Grinder.

Right: Carol LeBell's Daisy & Button amber butter dish made by J.H. Hobbs Brockunier (1863-1891) EAPG #101 later called Factory H (1891-1893) then with US Glass (1893-1920).

Left: Jean Hebert with her Nut Chopper.

Right: Jean's Nut Chopper, Mixing Bowl, and Pyrex Baking Dish.

### Sunshine Program by Danielle Joachim

Danielle gave out goodies to April/May Birthday members and guest. Mentioned that May 12<sup>th</sup> was National Odometer Day (1903)

## **May Program Presentation: U.S. Glass and Tiffin**

*Presenters included: Christian Bordelon, Keely Stockman, Lou Read,  
Gloria and Ronnie Broadbent, Carol LeBell, and Astrid Muissett.*

Christian Bordelon began the program with a history of US Glass. US Glass was a group of 15 or more companies that combined in 1891 in Pittsburgh PA and were located in the former Ripley Glass facility. It was designed to help with supply and demand during trying time for these companies.

After combining they built two new plants. One was an automatic facility and was constructed at [Gas City, Indiana](#). The other was a hand-worked glass operation and was in [Tiffin, Ohio](#). The plants all received a letter designation.

In 1892, A.J. Beatty joined the huge glass conglomerate. From that point forward, the Tiffin Plant was referred to as Factory R. Tiffin Factory R produced mostly pressed glass until 1914 when the tide started to change and blown glassware was becoming more popular. Tiffin produced quality glassware with delicate etchings. They were known for their use of color.

In 1938 US Glass office moved from Pittsburgh PA to Tiffin OH.

The Gas City branch produced machine made kitchenware and dinnerware in colored glass through the 1930s. The Pittsburgh facilities were known for their decorating of lamps, tableware and large line of colored glassware and crystal.

Tiffin's popularity kept US Glass afloat until 1963. The other locations had already been slowly closing leaving Tiffin Factory R and the Glassport PA location as the last ones to close in 1963.

## **Factory locations**

- Factory A - Adams & Co., Pittsburgh, Pennsylvania (1891-?) S. 10th and Sarah Sts
- Factory B - [Bryce Brothers](#), Pittsburgh, Pennsylvania (1891-?) S. 21st and Wharton Sts
