Dear Galena Street East:

Please pass along our appreciation to your group for visiting with our patients here at Shriners Hospitals for Children in Sacramento on September 20, 2014. The event was enjoyed by all the patients and their families as well as many of the employees throughout the hospital. Your group did a great job interacting with the children. Thank you for coming to entertain the patients through song and dance. I hope it was a meaningful experience for them. Everyone always loves it when a group brings such enthusiasm to their visit.

We often hear from former patients, who share heart-warming stories and remember their experiences with Shriners Hospitals with great fondness. We appreciate the time and effort that your group put forth in making the afternoon special for our patients.

Thanks again for helping to make Shriners Hospitals for Children Northern California a very special place.

Sincerely,

**Penny Lees
Manager, Therapeutic Recreation/Child Life Department**
