Company

Custom metal fabrication and installation, with a strong and credible reputation with services ranging from structural, architectural, ornamental and custom metal and sign fabrication. Also offering design and engineering solutions. This company is growing and has lots of opportunities!

Job Duties

Now hiring a CAD Drafter to work with a team of Architects and Engineers from design to fabrication

- Create detailed designs with computer-aided design (CAD) software
- Familiarity with 3D modeling tools
- Work closely with lead architects to prepare detailed, accurate drawings from rough sketches and estimations
- Provide information required by contractors and various approval bodies
- Check the accuracy of drawings done by teammates, ensuring builder compliance, and preparing colored drawings for client presentations
- Create structure drawings and fabrication drawings, manufacturing schematics, and 2D and 3D digital models of structure equipment designs, using measurements, specifications and additional data from engineering team

Requirements / Candidate Profile

- **Post-secondary training as a Drafting Technician / Engineering or other equivalent**
- **Minimum of two years of experience performing a similar role**
- **Strong working knowledge of CAD software is required**
- **Working knowledge of building codes**
- Excellent attention to detail
- Quality controlling the work of others
- Advanced ability to communicate effectively through oral and written communication
- Strong time management to meet deadlines
- Valid driver's license required
- Strong work ethic

How to apply

To apply please submit resume to HRQR@rncces.ca for pre-screening and consideration.

Include a note indicating why you are a good fit for this position.
