For years now Premo Steel Buildings has had a reputation of being the "Premium Steel Package" in the industry and is where the name "PREMO" was derived from. We pride ourselves in our expertise and our never ending pursuit of new and innovative ways in which to help our clients in their design and budget phases. Premo Steel Buildings are also among the quickest buildings to erect in the industry. This is due to the proficient way in which we design your building.

Compare Premo to any of our competitors and you'll quickly find that no one really stacks up to the services we offer. Premo is by your side and leading the way through all of the following stages:

- A) Design
- B) Drafting
- C) Engineering
- D) Manufacturing
- E) Shipping
- F) Service

Our desire to *always exceed expectations* has been the driving force to our success

Regardless of what type of building project you may have, Agricultural, Commercial, Residential, Industrial, Institutional or a shop building or garage, PREMO is well equipped to handle all of your building needs. Why not give us a call today?

Accessories and Add-Ons

Premo Steel Buildings offers a wide array of quality accessories to improve functionality and enhance your building's appearance. Choose from a multitude of color and trim options to create the perfect blend of form and function. Contact Premo Steel Buildings for details on these and other popular accessories.

Wall & Roofing Panels

Premo Buildings come Standard with 26 GA. Roof and Wall panels. All of our colors are available on any of our buildings. Color options are something that your Premo building expert will discuss with you in great detail.

Windows

Add light and warmth to your building with strategically placed windows. Fixed and sliding windows are available in a variety of sizes and trim packages, and can be ordered either pre-hung or ready to assemble on site.

Insulation

Premo offers laminated fiberglass blanket insulation in a variety of thicknesses and R-value ratings, as well as thermal-efficiency systems for both interior walls and ceilings that provide a more finished appearance while helping to make the building quiet and comfortable.

Doors

Whether you need just a simple access door or multiple loading/equipment bays, Premo's wide range of insulated and non-insulated door types and styles can be sized and configured to your exact specifications.

Wainscot

Optional wainscot in contrasting colors can give your building a highly distinctive feel and enhances the appearance of any structure. Premo offers several different wainscot style and application methods to suit virtually any style and budget.

Overhangs, Gutters and Downspouts

Protect your foundation and property from erosion and water damage while beautifying your structure with optional overhangs, gutters and downspouts. Made from light gauge materials and available in many attractive trim colors, these systems are hemmed for a strong, smooth and corrosion-resistant edge for years of beautiful functionality.

Interior Finishing

Finishing the inside of your building with steel liner panels adds style and energy efficiency. Roof and wall liner panels are available in 26 or 29-gauge in your choice of standard colors. Liner panel packages come complete with trim and fasteners for installation.

Exterior Facades

Premo offers a variety of Canopy, Mansard and Parapet exterior options that can add a distinctive flair to your structure while providing added surface for signage.

**We would like to take the time to thank Jim from Premo Steel Buildings. He handled our entire project better than we ever thought possible. Thanks again Jim.
Ron Woodard, Shingle Springs CA.**

**Thanks for your guidance on our shop building. We are now moved in and love our new facility.
Paul and Karen, Bakersfield CA.**

**Tom, I have put up many of these buildings in the past and I just wanted to take a moment to let you know that this building was the smoothest I have ever been involved with. Good job Premo.
Ben Childes, Portland OR.**

**Thanks guys at Premo for your integrity throughout our process. We will definitely recommend you to our friends.
Jack and Carrie, Littleton CO.**

Premo Typical Frame Types

Clear Span Gable

Clear Span Gable frame design makes up about 50% of all steel buildings. They are a very efficient way to design a building and can give great erection cost savings.

Clear Span Single Slope

Single Slope buildings are a great way to design commercial buildings and buildings with large storefront appearances such as strip malls.

Multi Span

Multi Span buildings are typically large buildings over 80' wide.

Lean To

Lean to buildings are a great way to accomplish separate office areas, storage or even open parking areas. They are very versatile.
