Agripro SY576	122	12.6	60.9
MBX 932	118	12.5	61.1

## PLOT HIGHLIGHTS

- New variety LSS 03M19 showed great in the plot this year. Solid disease package with heavy test weight makes this a great fit on all acres. Strong stability for high fertility environments
- SY007 continues to hold steady and produce year after year. Good drydown with good straw
- MBX 969 and MBX223 continue to show good yield
- LSS 02E18 produces consistent yield while being a few days ahead in maturity than anything else on the market.

Planting Date 10/10/19    Harvest Date 7/3/20    Plot Average 127 B/A
