To the Community Events Editor:

Enclosed find a copy of the Weis Ecology Center's fall program. It is our first major effort to provide environmental and educational programs at this time of the year.

Any and all space you can provide, either individually for each weekend program, or for the entire schedule of programs, will be greatly appreciated.

Most importantly, the paper will be helping the Weis Ecology Center, a non-profit center, help our mutual communities help themselves by becoming more aware of the environment, its problems, and possibilities.

The new administration of Weis Ecology Center is aware of deadlines and schedules. Any further such requests will be timely, clear, and concise.

Cordially,

Stephen E. Tarnell  
DIRECTOR

To the Public Service Director:

The Weis Ecology Center is a non-profit center offering ecological and environmental education programs. Please help us help the community by affording us your earliest consideration in airing as many as possible of the enclosed weekend programs. We will appreciate both your Public Service and Community Bulletin spots.

The new administration at Weis Ecology Center is aware of deadlines and schedules. Any such future requests will be timely and brief.

Thank you for your support and any professional guidelines.

Cordially,

Stephen E. Tarnell
