

RISK ASSESSMENT REPORT

Assessor: G Hurford **Date:** November 2016 **No. gen12**

Principle Activity: Skips and Roro movements

Location: Heathfield

Activity/Hazard	Severity	MPL	Probability	Risk scoring	Risk Rating
Falls from height	1	50	20	71	High risk
<p>Risk to: Lorry drivers, others who may cover skips and bins</p> <p>Risk from: Jumping down from lorry cab Falling from top of bin/skip/chassis</p> <p>Risk of: Sprains, broken limbs, death.</p> <p>Existing controls: Drivers are trained in load sheeting Drivers step down backwards from cab using three point hold. Skips are sheeted before loading onto lorry Bins are auto sheeted Sheets are removed with skips on the ground</p> <p>Additional controls: None</p>					
Residual risk	Severity 1	MPL 50	Probability 20	Residual score 71	Residual rating HIGH RISK

Activity/Hazard	Severity	MPL	Probability	Risk scoring	Risk Rating
Slippery surfaces and oil on footwear	1	50	20	41	High risk
<p>Risk to: Lorry drivers, others who may cover bins</p> <p>Risk from: Slipping whilst covering load Feet slipping off control pedals</p> <p>Risk of: Sprains, broken limbs, death</p> <p>Existing controls: Ground regularly swept by crane Safety footwear with good tread Soles checked for oil, grease etc before entering cab.</p> <p>Additional controls: None</p>					
Residual risk	Severity 1	MPL 50	Probability 10	Residual score 61	Residual rating HIGH RISK

Activity/Hazard	Severity	MPL	Probability	Risk scoring	Risk Rating
Demounting/ mounting skips / bins	1	50	20	71	High risk
<p>Risk to: Lorry driver, public</p> <p>Risk from: Vehicle becoming unstable Collision with public Driver being hit</p> <p>Risk of: Broken limbs, major injuries, death.</p> <p>Existing controls: Drivers are trained in use of bins Driver wears hi-viz jacket, safety shoes and hard hat. Lorry is sited on solid ground with no side slope Driver checks for people / vehicles at rear before demounting bin Stabilisers are lowered to just clear of ground Driver checks hook and hook mounting (bins) and chains and chain lugs at every use. Driver checks skip / bin secure when mounted</p> <p>Additional controls: None</p>					
Residual risk	Severity 1	MPL 35	Probability 10	Residual score 46	Residual rating MEDIUM RISK

Activity/Hazard	Severity	MPL	Probability	Risk scoring	Risk Rating
Unloading bins	1	20	10	31	Low risk
<p>Risk to: Lorry driver, other workers in area</p> <p>Risk from: Tailgate springing open Contact with grab Falling material</p> <p>Risk of: Minor fractures, broken limbs</p> <p>Existing controls: Lorry driver and yard operatives wear hi-viz jackets, safety shoes and hard hats Stabilisers are deployed so they just clear the ground Scrap handler removes load from tailgate to relieve pressure Driver makes visual contact with scrap handler operator before approaching tailgate Driver acts as banksman for scrap handler on blindside of vehicle Driver ensures all safety clips are fitted to locking pins when closing tailgate.</p>					
Residual risk	Severity 1	MPL 20	Probability 10	Residual score 31	Residual rating LOW RISK

Signature of Assessor _____

DISTRIBUTION: Lorry drivers, yard office, health and safety file.
