## LaRue County Public Library Employee Handbook

### **Purpose of Employee Handbook**

The purpose of the handbook is to provide a general introduction to your responsibilities and benefits as an employee of the LaRue County Public Library. If questions arise concerning personnel policies, do not hesitate to ask the director.

As an employee of a public library staff, you are entering a field with years of heritage. Indeed, without libraries there would be no record of the past. Without the resources and information the library offers, humanity's progress into the future would be hampered. The library plays an important role in society.

The public library is one of the few institutions that serve everyone. It charges no admission. Anyone who needs information may come here. Everyone who enters the library does so in the hope of finding help. Whether they return depends on whether they find it. That is your role, to provide that help.

### **Philosophy of the Library**

The LaRue County Public Library provides, on equal terms, free service to all individuals and groups in the community. It accepts as its basic objectives the provision and servicing of expertly selected materials which aid the individual in the pursuit of education, information, or research, and in the creative use of leisure time. Since financial limitations generally prevent equal emphasis on all aspects of these objectives, the library recognizes that its major concerns must be positive contributions toward the development of the individual as a citizen and the removal of ignorance, intolerance, and indifference.

The library recognizing its responsibility to develop adult citizens, for whom the use of books and other media of communication is a necessary and natural part of intelligent living, provides special services aimed at children. It seeks to direct and stimulate young readers by making available expertly selected collections and skilled individual and group guidance.

In provision of special services for children, the library strives to guide the child toward a love of reading and an awareness of books as a means of satisfying mental, emotional, and activity interests. To integrate this program, the library works closely with parents, schools, and other educational agencies, as well as with the children themselves.

As a popular materials center library, the library meets its objective of providing recreational material and encourages such use of leisure time as well as promotes personal development and social well-being. The library tends increasingly to leave to commercial agencies the provision of trivial, purely ephemeral materials.

As a tax supported institution, all activities of the library are motivated by the idea of public service. The library is a part of local government, and its management must be cognizant of the principles generally accepted and enforced in good public administration. Paramount in the employee's mind should be the idea that they are a public employee and that the activities of the institution in a carrying out its objectives are of first concern. Employees, as well as the trustees and library director, take an active part in community affairs and work consistently toward making the library an integral part of constructive community activities.

Public criticism of the library and of administrative policies is avoided by all library employees. Library service is rendered on a strictly impartial basis to all individuals and groups in the community.

### **Financial Support of the Library**

The library is supported mainly by local taxation. The taxes are collected by the sheriff's office as part of the property tax and the county court clerk's office for property tax on automobiles and boats. The library also receives income from the state in the form of state aid and other grants. Other sources of income include gifts, desk receipts, and money from charges for use of some library equipment such as the copier and fax machines.

### **Organizational Structure**

The LaRue County Public Library District, which serves LaRue County, was established in 1969. It was incorporated under the laws of the Commonwealth of Kentucky.

The library is governed by a five member board of trustees. These members serve four years terms. When a member's term expires, the current board selects two people whom they feel have the best interest of the library in mind and those two names are submitted to the Kentucky Department for Libraries and Archives. KDLA sends those names to the local county judge executive who chooses, with the approval of the fiscal court, one of the two to serve. The trustees serve without remuneration of any kind.

Legal responsibility is vested in the board, which is the policy forming body of the institution. As stated in its bylaws, the board's responsibilities include selection and appointment of the director, promotion of library interests, securing adequate funds for a progressive, expanding program, and control of library funds, property, and equipment. Subject to existing statutes and ordinance, it has the power to determine the rules and regulations governing library service and personnel.

Regular meetings of the board are held on the third Thursday of each month at 4:30 p.m. at the library. These meetings are open to the public.

### **Certification Requirement**

The LaRue County Public Library, along with the State Board for the Certification of Librarians, is committed to the principle that the most important element of a library is a well informed and educated staff. As public library service has become more sophisticated through the years, the requirements for certification have also evolved. The regulations developed by the board are intended to provide direction for the initial and continuing education needed by library personnel in order to assure the delivery of competent, quality service of library users in Kentucky.

According to 725 KAR 2:060, the following rules and regulations govern certification requirements for public library employees. A full-time or part-time library director serving a population of 15,000 or less shall hold or obtain at least the Professional III or IV certificate. A full-time or part-time library director serving population of more than 15,000 shall hold or obtain the Professional I or II certificate. A full-time or part-time assistant director, department head, or bookmobile librarian, as determined by the library director or designee, shall hold or obtain at least the Paraprofessional I certificate. Any other full-time position providing library services, as determined by the library director or designee using the Approved Guidelines for Determination of Paraprofessional Level of Certification, shall hold or obtain the Paraprofessional II or Paraprofessional III certificate.

If LaRue County Schools are closed due to the weather, the library will open at 10:00 a.m. unless the roads are severe, then the decision to close the library shall be made by the Director, with approval of one or more trustees.

In the event of severe weather conditions or other emergency situations, employees will be notified as to the state of operation of the library. The Director will, if possible, contact each employee.

Full time and part time employees shall be paid for the hours they were scheduled to work.

When the library is open, but extreme weather conditions make it impossible for a staff member to arrive at the regular time, reasonable allowance for lateness will be made. If the employee cannot report for work within a reasonable time, they may charge the full day off to vacation or leave without pay. Employees who do not report to work will not receive credit for any work hours. The library should, of course, be notified as soon as possible.

When the library is closed for weather or other emergencies, compensatory time off is not allowed for those on day off or vacation leave.
