

11-28-20
COVID Update

Greetings from Midway Nursing Home –

Per NYS DOH regulations, the facility is required to provide COVID-19 updates within 24 hours when there are changes.

As you know, we have been doing weekly testing of our residents and twice weekly testing of our staff. Unfortunately, 2 residents who are asymptomatic have tested positive. No staff have tested positive as of this notification.

After discussions this morning with both NYS & NYC Departments of Health representatives and out of an abundance of caution, the entire facility is being quarantined for 2 weeks. This means that all residents will be closely monitored and are on both droplet and contact isolation precautions for 2 weeks. Staff will be utilizing full PPE for every resident encounter. The families of the 2 positive residents have been contacted.

Resident movement is limited to their rooms and enhanced cleaning measures will continue.

Unfortunately, this also means that all visitation, including window visits are on pause for at least the next 14 days. You will also be receiving daily updates via these calls. Daily updates can also be found on our website www.midwaynursinghome.com.

If you would like to make arrangements for a virtual visit, please contact the Social Work or Recreation Department.

We want to assure you that we are doing everything possible to keep your loved ones safe.

Please continue to take care of yourselves and stay safe!
