Training Opportunities

Option 1: Online Guide

The project website has an online training guide that you can view, download or print at anytime. This guide has step by step instructions with screenshots to help end users match with what they are seeing on screen.

[Guide Link](#)

Option 2: Working Labs

Working Labs are scheduled thru the month of February and offer a great opportunity for staff member to walk thru the process with a member of the implementation team. Sign Up dates are also available on the project website and individuals are welcome to come as many sessions as needed.
