

Building Connections

Where education meets fun in the world of Snapology

Superheroes

To the Batcave LEGO® fans! Design your own super hero, create your own adventure, and build awesome superhero hideouts. Have a blast as you create your own fantasy world of superheroes. What kind of superpowers do you have?

What the Students Will Learn

- **Character and Story Development**

Comic books and their movies bring together great stories and interesting characters. Students in Snapology's Superheroes program will get a chance to create both. They will build their own superhero and give him/her their favorite superpowers. They will also have the opportunity to create comic strips with their new superheroes.

- **Presentation Skills**

Many school age students struggle in their presentation skills in the classroom. Snapology will help your child feel more comfortable presenting in front of a class by having the child explain each of their builds to their peers. Presenting their creations will help their confidence in front of the class and will translate into their everyday self-assurance in the classroom.

- **Teamwork/Partner Skills**

The Avengers and The Justice League would not be able to defeat the worst evil villains without great teamwork. At Snapology, we highlight those same principles in our classroom. We emphasize in our classes that students use good teamwork skills. They are required to do group planning and respect the opinions and ideas of their partners.
