

“The last three years that I've gone to camp I have had the absolute time of my life. Girls Rock Camp is something that you can go away from a changed person. I really enjoyed the first few years of Rock camp. But this last year that I went was different. My band, Comets to Venus, wrote a song about empowering women and not letting people treat women like garbage. Being up on the stage and singing each and every lyric with every ounce of passion in my body was a feeling that I cannot describe. It was magical.

Everything about this camp, from the music to the workshops to the endless smiles we share throughout the week, makes Girls Rock Camp by far the best camp that I have ever been to!”

Savannah, age 16
