

"GET REAL" TREE TIMES

PLANTS OF THE WILD, TEKOA, WA 99033

First Edition

Winter 2011

WINTER GREETINGS & HAPPY NEW YEAR!

Looking out my office window this morning here at the Nursery it seems to be a beautiful spring day: blue skies, no sign of snow on the ground, lots of fresh mud and a gentle breeze. Opening the door and walking outside however is a different story!! That gentle breeze still carries a chilly reminder that it is the end of January, and there is still **PLENTY** of time for winter to return here on the Palouse. It is nice to dream, if

even just for this morning! I hope you all had a wonderful holiday season! It seems that they come and go so fast, and all too quickly we are back to the everyday grind of work, appointments, school, bills, etc. Then before

you know it, it is Thanksgiving, Black Friday and Christmas is here again! I don't know how it is for you, but the older I get, the more true this seems!!!

As we sail in to 2011, I hope this finds you and your family ready for a fabulous year full of health, happiness and success!

Sincerely,

Carrie Garcia
Assistant Manager
Plants of the Wild

REAL FACTS:

- 98% of REAL Christmas trees are a crop planted & harvested on a farm!
- REAL trees are grown in all 50 states and Canada! 85% of the artificial trees are imported from Canada.
- 1 acre of REAL Christmas trees produces enough

Picea pungens 'glauca'-
Colorado Blue Spruce in front of our office

Quit "Faking" It!

In my opinion, it doesn't seem to matter what industry comes to

mind, with so many "knock-off" brands and products trying to imitate the original it is becoming more and more difficult to tell the difference. Automobiles, tools, clothing, handbags, shoes, household items and the list continues. One obvious benefit that we have as growers is that our REAL tree is easy to distinguish! Looking at a picture on a cardboard box can't compare to a family outing — bundled up, hats and mittens, snow boots and red noses to find the

perfect tree! Candles and pot-pourri just can't replace the aroma of a fresh-cut tree being brought inside and the crisp fragrance it gives. Our livelihood helps families create memories and traditions to last a lifetime. I smile each time I see a family with their tree tied on top of their car — a memory is being made at that very moment! And those memories turn in to traditions. Traditions that will last a lifetime... And that is why I love what we do!

FUN IDEA!

We will individually wrap any order for special "give-away"s & promotions!
Just a NICKEL per tree!!

Noble Fir and Scotch Pine being prepared for shipping.
Inset: Abies procera—Noble Fir (4 cubic inch plug)

Are you looking for a cover crop to plant between your tree rows?

We may have just what you need!

Kathy Hutton in our office can help you find the **PERFECT** combination of grasses, legumes or forbs to help control weeds and erosion. Give her a call!

This **Blue Heron** has been spending time hunting in the fields and creek that surround our Office and Nursery, along with his mate, beavers, coyotes, deer, a weasel, and a family of otters that have moved in a bit closer for the winter.

OTHER HELPFUL RESOURCES
