- INERT INGREDIENTS- 96.12%**
- TOTAL 100%**

This product meets the regulations of the **USDA Bio-Preferred Program per ASTM Standards.** GSS represents that this product qualifies for exemption under **FIFRA, 40 CRF Sec. 152.25 (f), (1), (2) and (3) minimum risk pesticide.** EST. #88238-MS-001

- ✓ **100 % Bio-Degradable**
- ✓ **100 % Carcinogenic Free**
- ✓ **100 % Non- Toxic**
- ✓ **USDA NOP Approved**
- ✓ **Increased Yields**
- ✓ **Increased BRIX (More Sugar)**
- ✓ **Removes Chemical Residue**
- ✓ **Promotes Moisture & Nutrient Uptake**
- ✓ **Cleans Emitters, Nozzles and Tanks**
- ✓ **Reduced Insect and Pest Damage**

Concentrated: Dilute at a rate of 1 ounce per 4 gallons of clean water for small applications or 4 oz. to 30 gallons clean water for normal applications and soak plant and soil. Adjust spray rigs and nozzles to allow for soaking of plant and soil. **Promotes uptake** of nutrients applied as a foliar. Can be applied as soil drench. Can be co-applied with other fertilizers and adjuvants.

Application: When applied as a foliar, thoroughly soak leaves and trunk. Product will clean all chemical residue, mold, scale, insects and buildup on leaves and trunk. When applied thru a fertigation system, product can be combined with other fertilizer products. **Don't Guess, Soil Test** to check for nutrient or microbial imbalance. Product will clean emitters, nozzles and tanks as it is used. **DO NOT APPLY** directly to flowers. Harvested crops can be washed with products to remove all chemical residue and will extend shelf life by up to 14 days.

Frost and Freeze Resistance: apply product to leaves and fruit prior to frost. **Non-Toxic** when used as directed, keep from children. Store in a cool place.

Net Volume 2 ½ gallons
Net Weight 25 lbs.
