The City of Moran would like to send out a <u>HUGE THANK YOU</u> to everyone who helped out around the City after the storm that came through in July. It really made everyone's jobs easier as well as let us focus on getting the electric services restored. We can't tell you how much we appreciated each and everyone of you! We would also like to Thank our Community member City and Non - City Residents for all of the help you gave to one another during that time.

Please make sure to take some extra time over this next week to spruce up your property as we all want the City to look it's best for 77th Annual Moran Day!
