➔ What do I do when the event starts?

Open the FishDonkey App.
That's the home screen.
Tap on the event name.
Tap on Leaderboard.

➔ Digital Livewell Photos on Leaderboard

The fish icon is your Digital Livewell. It will show fish that are waiting to get on the leaderboard. When you return to good reception, simply tap your livewell and leave it open until all fish are RECEIVED.

Do NOT delete anything from your livewell or your camera photo deck. Do NOT alter any photos in your deck.

➔ Required Documentation

1. Photo of the fish on the measure board
2. Photo of you holding the fish
3. Mudpuppies require only a video release of the fish. Enter a "1" for the length

➔ HOW TO ENTER A FISH

1. Tap ENTER A FISH / LEADERBOARD
2. That will open your camera. Take your required pics by tapping on the camera icon. Take your video thru the video button (if required).
3. When you are finished, tap the checkmark.
4. Enter the species and the length of your fish.
5. Tap SUBMIT.

Don't panic if you cannot see your name or photos on the leaderboard. If you are in an area with poor reception, your fish are simply waiting patiently to swim upstream to an internet connection. Tap on your Digital Livewell (fish icon) and you will be able to see your fish are not lost.

When you get back to a strong connection, Open your digital livewell and leave that screen open until all fish read RECEIVED.

➔ No Internet?

Open the app before you head out. Tap on the name of your tournament. That is all it takes to fully load your tournament to be prepared for no service. Leave the app open. It's ok to let it time out. Just don't log out. Enter fish as normal. Open your Digital Livewell when you return to push the fish through to the leaderboard.
