COOKING IS LEARNING

An opportunity has arisen this school year for Mrs. Scallions Community Based class to brush up on their cooking skills. In class, the students will learn to plan, shop, and prepare various meals that will be available for sale to the faculty. All proceeds that are collected will be used to enhance the program as well as attend field trips to expose the students to local businesses in the community. They will also continue to participate in their regular community based opportunities which provide more detailed instruction on how to be self-sufficient once they exit the high school setting.
