EASTERN OKLAHOMA STATE SPELLING BEE

Welcome to the 4th annual Eastern Oklahoma State Spelling Bee

The purpose of this competition is to help students improve their spelling, increase their vocabularies, learn concepts, and develop correct English usage that will help them all their lives.

Eastern Oklahoma State Spelling Bee Procedure

This is an oral competition conducted in rounds until only one speller remains. Each speller has been assigned a random number. There is no advantage associated with a particular high or low number.

The speller approaches the microphone when it is his or her turn to spell. A speller who correctly spells his or her word remains on stage and waits for the next round.

One of the judges will ring a bell after a speller completes the misspelling of a word. The speller is asked to leave the stage and sit with family members. Once a speller has misspelled a word he or she should not leave the auditorium until the end of the round.

A speller may question the pronouncer about a word's pronunciation, definition, part of speech, use in a sentence, and origin. Once having started to spell a word, the speller may start over, but the letters or sequence of letters already spoken may not be changed.
