Condor HD

Heavy Duty Flexible Impact Door

The Condor HD Heavy Duty Flexible impact door is constructed from two layers of food grade, scrim reinforced vinyl belting material bonded together. This door is a favorite for warehouse and food processing applications.

- ✓ Designed and manufactured specifically to absorb heavy duty traffic
- ✓ Durable, abrasion resistant material
- ✓ Clear PVC window
- ✓ Bi-parting door panels have a 3" center overlap providing a temperature and noise barrier
- ✓ Jamb edge balloon seal, with top & bottom wiper gaskets, provide a superior seal that helps save money
- ✓ Top mounted gravity hinge permits door to open fully and close automatically by gravity
- ✓ No bottom hinge allows for maximum use of opening width
- ✓ Easy to clean
