

2018 Year End Update

Save the Date

May 5, 2019
Kyle's Legacy Walk

Borderland State
Park, Easton

In sad news, several angels got their wings this year. Georgia, Capone, Oscar, Diamond, and Chewy broke our hearts and are now running free over the rainbow bridge. Every day, our furry loved ones are called home too early by the cruel disease Cancer.

We work toward a future where Cancer is a painful memory of the past instead of a daily occurrence.

The Baker Institute for Animal Health is our partner and primary beneficiary. They are working hard to find a cure.

Until then, we will continue our journey...

...until there is a cure

By the numbers:

15 Public Fundraising and Awareness Events

2 Private Fundraising Events

\$5,550 Donated to the Baker Institute for Animal Health Canine Cancer Research

2 Pups and families assisted with the new Star Light Program

150 new Followers on Facebook

2018 was a very successful year! Thanks in big part to all of your continued support and for all of the new ideas for fundraisers that our followers suggested and made happen.

We were nominated twice by two of our followers, Carol Livingstone and Lauren Colleary for the Toyota My Choice Charity and won \$500 grant!

Cindy McDonough very graciously chose Kyle's Legacy as one of 3 beneficiaries for her fundraiser featuring incredible artwork paintings of pups – 100 Dogs in 100 Days.

Tracy and Linc Turner – our beautiful angel Georgia's parents – hosted their annual Howleen costume party and generously had us as co-beneficiary. Amazingly, this gained us not only a substantial amount of awareness and funding, but it also resulted in a surprise donation from WAGS.

In addition, we want to express special gratitude to Divine Consign & Boutique for two fun and successful shopping events and a separate "Buy a Bone" fundraiser. And also to Norwell Veterinary Hospital for holding the Critter Crawl to spread awareness and raise funds for us.

We are so grateful for all our supporters!

We are very excited to announce that in 2018 we were able to launch the Star Light Program. This is a financial Aid fund to help qualified families who need help getting their pup diagnosis or first round treatment for canine cancer.

Through your support we were able to help two pups' families. Diamond and Daisy.

Sadly, Diamond has left our family, but thankfully, because of your support, her family was able to diagnose her rare form of lymphoma. And they in turn gave her the BEST of her days.

Daisy is in remission due to chemotherapy and continues to do well with her treatments. We

Your Support Makes A Difference!
