Please share this with people who may be interested in providing this workshop in their conference, retreat center, university, college, religious organization or library.

For a moment, try to imagine what human existence would be like without the **Three Great Human Obsessions of Sex, Money and Power.**

This program will be an open dialogue format where we creatively explore the possibility of creating a new, enlightened civilization beyond these obsessions that have led to empires, organized crime, oligarchs, dictators, wars and the near destruction of planet Earth.

Join Sandy Hinden, [human development facilitator](#) and founder of the [Commonwealth for Earth & Humanity](#) that seeks Global Demilitarization through National Military Budget Reductions of 5% a year to be used for spending on Human Development, Society, Earthcare and Infrastructure that create Enlightened People, Thriving Families, Creative Communities, Worker-Owned Cooperatives, Regional Integrated Cooperation and a Sustainable Planet.
