Subject: RE: 2007 Nebraska MGM Bill Proposal

Ms. Craven:

I have received your e-mail message and the attached proposal for legislation, which would prohibit circumcision, among other things. I wanted to inform you that I am not interested in sponsoring this legislation. The statutes are currently silent as to whether a male infant should be circumcised and I believe that the government should not interfere with this decision that is made by the infant's parents.

Respectfully,

Senator Pat Engel
District #17
