### Volunteer Help To City Praised By City Council

Volunteer aid to the city and the Dorval Recreation Association were praised by Mayor John Pratt and Alderman Arthur Samson at a meeting of Dorval City Council last Thursday afternoon.

Ald. Samson said the DRA was doing some wonderful work in the recreation field: while Mayor Pratt praise the Association and others who were helping in various vo-lunteer capacities.

Intheer capacities.

They were answering a critic at the council meeting who thought that, with a full-time parks and playgrounds director (Mr. Roger Bastien), the swimming pools should come under his full-time jurisdiction. Had they been, he said, the pools might have been opened earlier, when Montreal was enjoying the hot weather.

Mayor Pratt suggested that the critic should meet with Ald. Samson and Mr. Bastien, who would explain in detail the workings of the DRA and other recreational programs. Volunteers in various capacities had helped, at no cost to the city. The pools had been built by the DRA at a time when the city could not afford them. Without their aid, Dorval might not be having swimming pools right now. ing swimming pools right now.

The most searching comments on Dorval's proposed zoning by-law was contained in a brief submitted by the Bord-du-Lac Association at last Thursday's meeting of City Coun-

#### HE'LL BOUNCE BACK

If our assessment of the man is-correct, last week's surprise de-feat of John Pratt in the Federal elections will only serve to make him bounce back with increased fervour. It won't kill his sincere wish to work for his former constituents.

Mayor Pratt is a surprising man of many talents. He is also sincere

and a dedicated public servant - with enemies, of course.

Since he entered politics on the municipal and Federal levels he has worked without stint. But people have short memories and defeat no doubt, came hard. He would not be human if he did not feel some personal slight had been handed him.

Political pundits feel that the victory of Mr. Rock was purely a desire of the majority to follow the crowd. Mr. Pratt's personal popularity did not suffer. On the contrary it was strengthened, particularly in Dorval, Pointe Claire, and Western Lachine and LaSalle, as

ly in Dorval, Pointe Claire, and Western Lachine and Loballe, as the poll shows. Big surprise, however, was the drop in support from the extreme western and northern limits of the riding. Politics aside, we do not hide our admiration for the mayor of Dorval, having more than a little knowledge of what he has done for the riding and this city. It is fortunate that Dorval still has him for Mayor-Certainly there is no one on the horizon who could fill that role so

#### ACTION-NOW!

School's over. But the problems of the Roman Catholic and Protestant school boards are not. This, therefore, should be as good a time as any to resolve the high school problems facing both.

Lack of adequate facilities for the training of growing minds approaching university level could have a disturbing effect on their future attitude towards education. It is therefore encouraging that men pledged to right apparent wrongs have been elected to both

In the Roman Catholic issue Dorval has been split by conflicting stories and innuendoes which have hampered the go-ahead for an ambitious but warkable plan for a bi-ethnic school on Elmridge. Gyp Pager, QC, who at one time saw his hopes near the sabotage point, had most French and English-speaking parents behind him. 'Believing personalities were putting the brakes on movement he retired as commission head and Dr. Peter Paré, who had backed him, took over. The chief difference between the thinking of the elected Gilles.

Doré and the defeated Jean Lupien was that the latter sought to compromise with Quebec. Mr. Doré sided with the board - no com-

compromise with Jubbec. In Doe state with the September of the promise, Yet both wanted the high school.

The Protestant question is equally difficult as a letter published in these columns last week emphasises. There is accord among the Lachinemembers that a high school in Dorval is necessary. The central authority, however, disagrees apparently. They feel that an en-

tral authority, however, disagrees apparently. They feel mut an ell-larged Lachine high is sufficient.

Those who should be consulted, the taxpaying electors, feel otherwise. Their wishes should be examined. Land is available. So, too, apparently, is the money. Soth the Profestants and the Roman Cathelics have waited long enough.

One other grievance has been aired by the elected Mr. Martin Betts; the grade school accommodation on Dorval avenue.

It is to be hoped that all problems will resolve themselves and the seawers will be fauntly by Sentempha.

that answers will be found by September.

Now the voting is over let's cut out the talk and start acting.

### JOHN PRATT COMMENTS:

by JOHN PRATT

The Dorval Reporter, believing shot all sides should be heard when they have something to say, welcomes the return of Mayer John Prott to these columns. His victorious opponent in the Federal election, MP-elect Raymond Rock, In his column Mr. Prott will write on various matters of local, not in his column Mr. Prott will write on various matters of local, not lond international interest os he sees them.

The Federal election is controlled to the control of any or the capatain is staggering forward in the increasingly stormy seas of international competition, and although the captain is still in command, the crew is in violent disagreement as to which way the ship should be steered.

Obviously there is nothing to be gained by blaming each other for the storm, which is an external affair completely beyond the control of any of us. The most urgent need at the moment is a firm hand on the tiller and a most extraordinary degree of unselfish cooperation on the part of the crew if the ship is to be saved.

The possibility of the two major middle - of - the road parties combining with either of the two extremist groups in order to battle each other to the death for purely political reasons does not make any sense whatsoever in this crisis. The most logical coalition, if any, would naturally be between the two major parties whose basic policies are so closely akin, is it too much to hope that our leaders will be great enough to permit reason and logic to overcome emotion and go for the sake of all of us?

The ladies of Dorval United Church have a sure fire system to beat the weather! After years of rain at their strawberry socials they decided to move indoors for this event. The hall was beautifully decorated in summer colors with the tables surrounding a garden scene. The chaise lounge and garden tables made a lovely setting for the fashion show presented during the social.

By tomorrow, all the children will be out of school. I am sure there will be many comments in the papers a bout the rules to observe while driving through the streets. A very satisfactory project has just been completed! The United Church Boy's Camp at Lake Memphramagog is again ready for the campers. "The Upward Trail Camp" is staffed during this opening period by strictly volunteer help, under the leadership of one of the camp directors' Vic Godbeer. Men and women of the two United Chiurches in Dorval were among the volunteer work parties who travelled to the Camp to assist with the many chores necessary for a successful opening. Only in a volunteer group could you collect such a variety of talents! From their ranks come painters, carpenters, cooks, pin no tuners, plumbers, electrician's etc. All took a turn with the good old-fashioned pail and scrub brush, too.

There will be many happy campers from the Dorval and Dixie area among the group leaving next Monday morning. Bill Osterman will be the Camp Director for the summer assisted by Vic Holman. Both men are on the staff of Lachine High School, and reside in western Lachine.

At meetings of the three Dorval Home and School Associations, satisfaction was expressed in the election of Martin Betts as representative on the Lachine School Commission. Mr. Betts will be sworn in as a Commissioner on Thursday July 5th.

The Home and School groups have sent in a request to the school commission that the school bus situation to Lachine High School be reviewed. They would like the commission to consider the possibility of assuming the responsibility for the buses as do other Commissions in the Province.

#### WAFFLES MAKE DELEATABLE SUMMER FARE

Waffles have a long and honorable history, having been popular as far back as the 12th century. Informer times, 12th century. In former times, they were a special treat for feast days. The sellers set up their stalls at the doors of churches and baked them for people to buy and eat immediately, piping hot. The waffle irons were smaller than they are today and were hear.

waffle Irons were smaller than they are today and were heated on top of a stove. Sometimes the designs on the iron included intricate coats of arms and religious symbols.

Today, the irons are electrified, and made attractive enough to come to the table so people can still have freshly baked hot waffles. The recipes have changed too, and now include any number of variations on the standard waffle. Here's a recipe for Rice Waffles with an intriguing waffle. Here's a recipe for Rice Waffles with an intriguing new flavor and texture. Se-veral interesting suggestions for serving the waffles are also given in the recipe.

Measure into sifter the allpurpose or pastry flour, bak-ing powder, baking soda, salt and sugar. Beat egg yolks in a medium-sized bowl unin a medium-sized bowl until thick and light; stir in buttermilk and melted shortening. Sift dry ingredients into liquids and stir until smooth; mix in cooked rice Beat egg whites until stiff but not dry; fold into batter. Bake in preheated waffle iron until golden.

Serve with butter or mar-garine, and syrup, or in any of the following ways:

1. Serve as a base for creamed eggs or other creamed mixtures. This is ideal for buffet service. Waffle iron can be placed right on the table and waffles baked as needed. The creamed mixture can be kept warm over a candle warmer or a chafing dish.

2. Add 3/4 cup chopped nutmeats, chopped fresh fruit or well drained canned fruit or shredded Canadian cheddar or shredded Canadian cheddar cheese to the batter before baking. It's also fun to choose your own flavor. Just use a large cup for pouring batter and have cheeser, fruit and chopped nuts in small dishes. Stir a little of the desired ingredient into the batter in the cup and bake. That way each person can have his favorite waffle.

3. Spread waffles with honey butter and arrange fruits in an attractive design to give a fruit tart effect. This is a pretty attention getter for a brunch or ladies lunder.

### OPEN LETTER TO PARENTS Ultimatum Is Presented Must Have Help Or Else

This letter, unfortunately, must be used to bring to your attention a very serious situation that ex-ists in our Minor League Base ball Teams. This letter is, in effect, an ULTIMATUM to you, the parents of the boys who are par-ticipating in Minor League Base-

ball.

Do not confuse Little League and Minor League. The Little League is operating at a level that is very close to perfection with the cooperation of many fathers. However, Minor League is in all the section. ever, Minor League is in dire need of assistance from the fathers of the boys who are playing ball. The coaches who are working with your boys today cannot cope with the explosive situation, where more boys want to play ball than we can hardle. One coach an Saturday had 45 boys who all wanted to play. This situation would have required a minimum of 6 coaches in in order to operate efficiently. The coaches of Minor League have told us that they are going to resign if they do not receive assistance. They cannot and will not be considered glorified baby-sitters. We have had calls from parents and even letters, who are complaining that their sons did not participate in a Saturday maning game. However, how can one coach, faced with a situation such as this, succeed in allowing all of your boys to play ball.

Therefore, I am requesting that sammy of you who have boys who are playing ball, and who can be of assistance to us, come down to the ball parks and halp train your sons in sports. ever, Minor League is in dire nee of assistance from the fathers of th
