

HS-70

FOAM STICKS FOR WATER REMOVAL FROM GAS WELLS

PRODUCT DESCRIPTION

HS-70 is a Blue colored hard stick in a split cardboard tube.

PRODUCT BENEFITS

This product is formulated for deeper wells with elevated temperatures. Strong foam stabilizers assure maximum recovery of water and condensate. This product is effective in a wide range of produced waters. It is very unique in that it removes iron oxide and iron sulfide in the foam phase. Use of this product in landfill gas systems has proven to be very effective

APPLICATION

Remove disposable tube. Inject 1-3 sticks as determined by experimentation. Shut in time may be necessary.

SHIPPING AVAILABILITY

Stick sizes of $\frac{3}{4}$ " X 15" and $1 \frac{1}{4}$ " X 15" are available. Shipped in 50, 70, and 100 count cases. 55 gallon open top drum bulk shipments are also available. Other containers are optional.
