Our properties are private homes, so please use it as your own home.
As we had the pleasure to renovate it, we kindly invite you to follow few procedures in order to keep this house as you found it.

- a) **Smoke**
Smoking is strictly forbidden inside the house. If you are a smoker please always smoke in the balcony or in the terrace.
- b) **Curtains**
Please open and use the curtains gently and carefully, don't force it and if not working ask us to fix it
- c) **Vintage chairs**
For the outdoor space please use only the plastic white chair. The other chairs (vintage) in resin by Charles Eames and the wooden by Friso Kramer has been made for indoor use only and please don't move them from their position.
- d) **Antique/Vintage furniture**
Please use carefully the vintage furniture of the apartment. The table marble is very delicate and use always a towel/protection when you eat there (olive oil is very dangerous for marble. Please be careful with the wooden chairs and never put your luggage on top of any furniture (you can do it on top of the bed only!). Some of the antique furniture are in my family since a century or more, it will be painful for us if they would be damaged.
- e) **Plants**
Water the plants according with seasons and weather: everyday in summer, every second day in autumn and spring; twice per week in winter.
- f) **Candles**
Please never put any candle directly on the pavement or above any surface of the apartment. Use always a ceramic plate under the candles.
- g) **Garbage**
Recycle your own garbage by dividing it into organic, plastic/metal and glass. Before leaving the house, take it out and place it at the recycling points (look at the map attached).
- h) **Kitchen**
When you cut food, please use the wood cutting board. Please never cut on the white kitchen bench. In case of warm pots, coffee machines etc. please use a protective heat-proof surface and avoid putting warm surfaces directly on the white kitchen bench.
- i) **Fridge, stove and oven**
Please keep the fridge, stove and oven cleaned during your permanency.
- j) **Checking out**
Before leaving our house, make sure it is clean and in order, as you found it. We kindly ask you to remove the bed line and put it above the bed, together with the towels.
