

REDEFINING

Luxury

The Buckingham® Collection is a celebration of the finest traditions in American hand crafting. Each piece begins as an exquisite, hand-cut jewel, and then is expertly cast from its original master carving. Artists then brush, burnish and distress each piece by hand with meticulous attention to detail. Layering of paints and lacquers make each beautiful Kirsch® finish a one of a kind treasure. The Buckingham® Collection references the distinguished styles from the classic Victorian and the elegant Renaissance architectures offering unprecedented mastery. Each finished piece results in elegance in its purest form.

PERFECTING

Precision

The level of precision each of our artists have is astounding. From the start, a master carver takes hardwood and transforms it into an art form. From there, another artist will use that original carving to create a pristine mold which will be used to make the replica of the original. Once the mold has been poured and set, it is removed, cleaned and refined by hand. Artists will then begin the finishing process, layering multiple techniques like burnishing, distressing, painting and gold leafing depending on the final finish. Dry and ready for inspection, each product is reviewed one last time before it is shipped ensuring that each piece, from finials to brackets, is pure excellence.
