

A recent almost doubling of the cost of connectors and increasing postage rates is resulting in price changes for the various cables and cable kits. Instead of including the shipping costs effective 1 October 2009 there will be shipping costs added to the price of the cables and kits. If the order is received prior to 1 October 2009 the shipping costs for the United States will be waived. However, for Canadian shipments and foreign shipments shipping charges will apply. State sales tax for Texas residents must be charged at the rate of 8.25%. All shipments by priority mail.

Interconnect Cable Kits

Collins Radio S-Line:

“Basic” set of interconnect cables consisting of three RG58/U cables for PTO, heterodyne oscillator, and receiver antenna connections; three shielded audio cables for mute, sidetone, and anti-VOX. All cables are 48 inches long per the original specifications and use shielded RCA phono plugs.

United States, Canada, and foreign (except Texas): \$74.95(US)
Texas residents: \$81.13

Shipping:

United States: \$5.00
Canada: \$11.00 (US)
Foreign: Contact for shipping charges

“S-Line to 312B-4” interconnect cables (for connection between the receiver, transmitter, and station console). Consists of one RG58/U cable with RCA phono plug on one end and Type “N” connector on the other for connection between transmitter output and the wattmeter input; and five shielded audio cables with RCA connectors on both ends for the following circuits: TX to console PTT, TX to console phone patch, TX to console 6.3 VAC, RX to console audio (speaker), and RX to console anti-VOX. All cables are 48 inches long.

United States, Canada, and foreign (except for Texas): \$94.95(US)
Texas residents: \$102.78

Shipping:

United States: \$5.00
Canada: \$11.00(US)
Foreign: Contact for shipping charges

“Speaker cable for S-Line” interconnect cable for speaker (i.e. for 312B-3). Consists of audio cable with RCA phono connectors 48 inches long.

United States, Canada, and foreign (except Texas): \$14.00(US)
Texas residents: \$15.16

Shipping:

United States: \$1.00
Canada: \$2.00 (US)
Foreign: Contact for shipping charges

Collins Radio KWM-2 series

“KWM-2 to station console” Console interconnect cables consisting of the cables to connect between the KWM-2 series and either the 312B-4 or 312B-5 station console. The difference is that the 312B-4 kit does NOT include the cable for the outboard PTO. Set consists of one RG58/U cable with RCA phono plug on one end and Type “N” connector on the other for connection to the wattmeter input; RG58/U cable with RCA connectors on each end (312B-5 only); and 5 shielded audio cables for anti-VOX, PTT, Phone Patch, speaker, and 6.3 VAC. All cables are 48 inches long.

312B-5 cables:

United States, Canada, foreign (except for Texas) \$94.95(US)
Texas residents: \$102.78

312B-4 cables:

United States, Canada, foreign (except for Texas): \$84.95(US)
Texas residents: \$91.65

Shipping:

United States: \$5.00
Canada: \$11.00(US)
Foreign: Contact for shipping charges

“S-Line or KWM-2 to 30L-1 linear” Both sets consist of the cables necessary to connect the basic setup to the Collins 30L-1 linear amplifier. The set consists of an RG8/U (or equivalent) with Type “N” connectors on both ends for connection between 30L-1 and wattmeter; a 48 inch long RG58/U with RCA connectors on both ends for connection between transmitter r.f. output and 30L-1 input (this per the revised Collins specifications for the 30L-1 which replaces the 22.5 foot long cable); and audio cables with RCA connectors on both ends for the antenna relay and ALC connections. All cables are 48 inches long.

United States, Canada, foreign (except for Texas): \$84.95(US)
Texas residents: \$91.96

Shipping:

United States: \$5.00
Canada: \$11.00(US)
Foreign: Contact for shipping charges

“S-Line or KWM-2 to 312B-4 to 30L-1 linear” Consists of all cables in the cable kits for connection between the S-Line or KWM-2 series and both the 312B-4 and 30L-1 EXCEPT for the RG58/U cable between the transmitter and wattmeter. The cable between the linear and the wattmeter takes its place.

United States, Canada, foreign (except for Texas): \$159.95(US)
Texas residents: \$173.15

Shipping:

United States: \$11.00

Canada: \$26.00

Foreign: Contact for shipping charges

“KWM-2 to 312B-5 to 30L-1” Consists of above cables plus cable for external PTO to KWM-2.

United States, Canada, foreign (except for Texas): \$169.95(US)

Texas residents: \$183.97

“S-Line or KWM-2 to 30S-1 linear” Same cables as for the 30L-1 except that the r.f. cable between the exciter and the linear is 20.5 feet long per original Collins specifications.

United States, Canada, foreign (except for Texas): \$94.95(US)

Texas residents: \$102.78

Shipping:

United States: \$5.00

Canada: \$11.00(US)

Foreign: Contact for shipping charges

“S-Line or KWM-2 to 312B-4 to 30S-1” Same cables as for the S-Line or KWM-2 to the 312B-4 and 30L-1 except that the r.f. input cable to the linear is 20.5 feet long per original Collins specifications.

United States, Canada, foreign (except for Texas): \$169.95(US)

Texas residents: \$183.97

Shipping:

United States: \$11.00

Canada: \$26.00(US)

Foreign: Contact for shipping charges

“KWM-2 to 312B-5 to 30S-1” Same cables as for the KWM-2 to the 312B-5 to the 30L-1 except that the r.f. input cable to the linear is 20.5 feet long per original Collins specifications.

United States, Canada, foreign (except for Texas): \$179.95(US)

Texas residents: \$194.80

Shipping:

United States: \$11.00

Canada: \$26.00(US)

Foreign: Contact for shipping charges

“Collins KWM-2 with PM-2 power supply” Cable sets with right angle RCA connectors for use with KWM-2 units using the PM-2 power supply are available. Add \$5.00 (Texas residents \$5.41) to the prices for the individual cable kits.

Drake “4” Line:

“For C-Line” Interconnect cable kit consists of two RG59/U cables for injection and carrier oscillator; one RG58/U cable for receiver antenna; and three shielded audio cables for mute, anti-VOX, and PTO lamp connections. All are 38 inches long per original Drake specifications and have shielded RCA connectors on both ends.

United States, Canada, foreign (except for Texas): \$69.95(US)
Texas residents: \$75.72

Shipping:

United States: \$5.00
Canada: \$11.00(US)
Foreign: Contact for shipping charges

“For B-Line” Interconnect cable kit consists of one RG59/U cable for injection; one RG58/U cable for receiver antenna; two shielded audio cables for mute and anti-VOX. All are 38 inches long per original Drake specifications and have shielded RCA connectors on both ends.

United States, Canada, foreign (except for Texas): \$54.95(US)
Texas residents: \$59.48

Shipping:

United States: \$5.00
Canada; \$11.00(US)
Foreign: Contact for shipping charges

Heath “SB-Line”

Interconnect cables for connecting the Heath SB-300, SB-301, or SB-303 receivers to the SB-400 or SB-401 transmitters. Consists of three RG62/U cables 24 inches long for the HFO, LMO, and BFO; one RG58/U cable 30 inches long for receiver antenna; and three shielded audio cables for 30 inches long for mute, anti-VOX, and speaker. All cables are original Heath specification lengths.

United States, Canada, foreign (except for Texas): \$74.95(US)
Texas residents: \$81.13

Shipping:

United States: \$5.00
Canada: \$11.00 (US)
Foreign: Contact for shipping charges

Special cables including lengths, type of connectors, type of cable, etc. are available on special order. Please contact Z-Communications Company by E-Mail for a quote.
